silhouette portrait® 2

The Silhouette Portrait® 2 is an electronic cutting machine that is essential for DIYers and crafters who love to create things on the go. It can cut various types of material, including paper, cardstock, vinyl, fabric, and more, up to 8 inches wide and 10 feet long. The machine also has the ability to register and cut printed materials and is compatible with PixScan™ technology.

Good things come in small packages.

With the AutoBlade, your machine will set the correct blade depth for your project. Simply select the material type in the Silhouette Studio® software and let the Portrait do the rest.

With the 2mm clearance, you can cut thicker materials, such as foam and chipboard, with the deep-cut blade. (Deep-cut blade optional).

Portrait 2 is Bluetooth® compatible. Create something from your computer and send it right to the Portrait. (Bluetooth® Adapter optional)

Capture it. Cut it. Use PixScan™ technology to capture an image with your smartphone, import the images, and turn the image into a cut file.

Choose from over 100,000 ready-made designs available in the Silhouette Design Store or make your own designs in the Silhouette Studio® software.

curio

Rethink the possibilities

Meet the Silhouette Curio.

The Curio is more than a cutting machine. It's where precision engineering meets cutting edge innovation. Curio allows you to harness the power of five stunning, creative functions. Cut, Emboss, Sketch, Stipple, and Etch.

- Create beautifully etched metal*
- Embellish foils and metals with unique stipple patterns*
- Sketch intricate, multi-color designs
- Create one-of-a-kind stippled ink projects*
- Cut custom designs out of paper, card stock, vellum, vinyl, fabric, stencil material and more
- Cut or sketch fonts already installed on your computer
- Add embossing or debossing textures to soft papers, vellum and other delicate materials
- Use unique materials as project surfaces such as woods, canvas, metals, and more
- Register and cut printed materials (Print & Cut feature)

* Tool sold separately
